C-CODE CROSS-REFERENCE TO BOSTON SCIENTIFIC PRODUCTS

KEY POINTS OF THE GUIDE

- This document cross-references Boston Scientific products at the UPN/order number level to CMS assigned Category C-codes or indicates there are no applicable C-Codes.
- It also includes a Resource List (see page 92) that cites sources of information on Medicare policy for APCs and the Pass-Through List. Specifically, it highlights Program Memoranda, including those in which the C-codes were published, retired and reinstated; and other notices from CMS.
- See pages 91-92 for more information.

Important-Please note: Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. Boston Scientific recommends that you consult with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage and reimbursement matters. Boston Scientific does not promote the use of its products outside their cleared/approved (as applicable) label.

Ordering Numbers

Boston Scientific Corporation uses a fully computerized order entry system for the convenience of our customers. The system enables Customer Service Representatives to provide you with instant order entry as well as up-to-date order status information.

The system uses UPN order numbers for each product. The bold blue numbers are the old order numbers (see example). Please use either of these numbers when placing an order.

Boston Scientific Customer Service Representatives will be happy to help you with any questions. We are eager to make the ordering procedure as simple and efficient as possible.

Sensor™ Dual-Flex PTFE-Nitinol

Order Number	Diameter (in)	Length (cm)

C-CODE CROSS-REFERENCE TO BOSTON SCIENTIFIC PRODUCTS

BACKGROUND

C-codes are required by Medicare on claims where procedures are billed under the Outpatient Prospective Payment System (OPPS). They are used to track the types of devices used during applicable outpatient procedures and to ensure that both procedures and devices are appropriately billed. Claims can be returned if the primary device required for the procedure is not included on the same claim. Separate device reimbursement is not driven by C-code use. It is important to charge appropriately for device-related procedures because hospital's charging practices will determine adequacy of future Medicare hospital outpatient rates. Medicare sets new hospital outpatient rates using hospital claims and cost data from prior years.

When hospitals fail to include appropriate device charges on the claim, this reduces future payment rates because the device-related costs are not captured for that service. As a result, it is important for hospitals to accurately reflect all procedure costs in insurance claims charges, including device cost, using the appropriate C-code, where applicable in conjunction with revenue code 278 Medical/Surgical Supplies and Devices - Other Implant.

Medicare does not have a C-Code category for every Boston Scientific Urology and Women's Health product.

MEDICARE HOSPITAL OUTPATIENT AMBULATORY PAYMENT CLASSIFICATIONS (APCS)

APCs refers to the groupings of procedure codes under the hospital outpatient payment system that was made effective on August 1, 2000. This system, mandated by federal law to replace the former retrospective cost-based reimbursement system, utilizes pre-set, uniform payments for each procedure grouped within a given APC. APCs cluster outpatient procedures into groups based on comparable resource use and clinical similarities. APCs pertain to Medicare outpatient services only and have no bearing on Medicare inpatient or physician reimbursement.

IMPORTANT - PLEASE NOTE

Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. Boston Scientific recommends that you consult with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label.

- Products manufactured as Specials or Custom products are not returnable for credit

Product returns should be shipped to: Boston Scientific Corporation, Customer Service Returns Department,
500 Commander Shea Blvd., Quincy, MA 02171 1.800.862.1284

SPECIFICATION CHANGES As we are continually improving our products, the equipment supplied may not agree in all details with the description and specifications shown in the catalog and/or price list. All prices and specifications are subject to change without notice.

Boston Scientific Corporation makes no warranties, express or implied, including but not limited to, any implied warranty of merchantability or fitness for a particular purpose, except as specifically set forth in the product labeling supplied with each device.

REGULATORY Boston Scientific distributes products in compliance with relevant regulations.

CAUTION: Accordingly for medical devices: Federal (USA) law restricts these devices to sale by or on the order of a physician. Please refer to package insert provided with the product for complete Indications for Use, Contraindications, Warnings, Precautions, Adverse Events and Instructions.

Repliform Tissue Regeneration Matrix complies with U.S. Regulations in 21 CFR part 1271 Human Tissue Intended for Transplantation.

WARNING REGARDING SINGLE USE DEVICES

Products marked as "single use" are for single use only. Do not reuse, reprocess or resterilize single-use products. Reuse, reprocessing or resterilization may compromise the structural integrity of the device and/or lead to device failure which in turn may result in patient injury, illness or death. Reuse, reprocessing or resterilization may also create a risk of contamination of the device and/or cause patient infection or cross-infection, including, but not limited to, the transmission of infectious disease(s) from one patient to another. Contamination of the device may lead to injury, illness or death of the patient. Boston Scientific Corporation assumes no liability with respect to instruments reused, reprocessed or resterilized and makes no warranties, express or implied, including, but not limited to, any implied warranties of merchantability or fitness for a particular purpose, with respect to any such instrument.
